

Bioanalytical - Pharmacokinetic Testing

'Trusted Bioanalytical Testing Partner providing Specialized Mass Spectrometry Expertise since 2001'

QUALITY | ACCURACY | SPEED

METHOD DEVELOPMENT EXPERTISE

- Experience in small molecules/peptides in various biological matrices
- Skilled staff of LC-MS/MS experts
- Dedicated PK team with a combined 35 years of experience
- Experience in First-in-Human studies

VALIDATED METHODS & PROTOCOLS

- Ensures reproducibility and repeatability of methods
- Certifies them fit for the intended purpose
- Validation data packs (reports and certificates) provided

HIGH THROUGHPUT SAMPLE ANALYSIS

- High throughput analysis using robotic liquid handling systems
- Enabling rapid turnaround times for SAD & MAD cohort analysis
- Multiple highly sensitive LC-MS/MS instruments
- Non-Compartmental Analysis capability with Phoenix® WinNonlin®

QUALITY ACCREDITED SERVICES

- ISO 17025 accreditation ensures validity, traceability and reproducibility of results

About Us

LEADING THE FIELD

World's First ISO 17025 Accredited Laboratory for Proteomics Services

GOVERNMENT-RECOGNIZED R&D PARTNER

Registered Research Service Provider (RSP) for Australia's R&D Tax Incentive Program

MASTERING PROTEIN PROFILING

Expertise in Protein Comprehensive Structural & Functional Characterisation

REGULATORY APPROVAL SUCCESS

Data Used in Client Regulatory Approvals

QUALITY SERVICES

Quality Management Systems for Service Provision

LEADING THE WAY IN LC MS/MS TECHNOLOGY

Leading Mass Spectrometry Technology (LC MS/MS) for Sensitivity and Throughput

REVOLUTIONIZING ASSAY DEVELOPMENT

Hundreds of Targeted Mass Spectrometry Assays Developed

CUTTING-EDGE FACILITIES

State-of-the art Facilities in Western Australia
