### About Proteomics International Laboratories (PILL)

PILL is an ASX listed (ASX: PIQ) life science company focused on the area of proteomics – the industrial scale study of the structure and function of proteins. PILL is recognised as a global leader in the field of proteomics. It received the world's first ISO 17025 laboratory accreditation for proteomics services, and operates from state-of-the art facilities located on the QEII Medical Campus in Perth, Western Australia. The Company's business model uses its proprietary technology platform across three integrated areas of diagnostics, drug discovery and analytical services.
