

## Research Assistant

**Proteomics International** is an ASX listed medical technology company at the forefront of predictive diagnostics and bio-analytical services. The company specialises in the area of proteomics – the industrial scale study of the structure and function of proteins. It received the world's first ISO 17025 laboratory accreditation for proteomics services, and operates from state-of-the art facilities, located on Perth's QEII Medical Campus.

### Areas of Experience/Qualifications:

- BSc degree
- An interest in proteins/peptides
- Demonstrated skills in areas related to protein science

### Responsibilities include, but are not limited to, the following:

- Perform R&D and analytical services.
- Sample preparation and processing.
- Data analysis and report writing.
- Perform general lab duties and maintain lab standards.

High energy applicants who can multi-task and handle a fast-pace, dynamic work environment. Good communication skills, attention to detail and good time management skills are essential. We require an enthusiastic, competent Research Assistant, both with the ability to work within a team or on their own.

We offer

- Exciting opportunity
- Competitive salary (commensurate with experience)
- State-of-the-art facilities
- Great location

The positions are being offered for a minimum 2 year contract full time with flexible hours available. The applicant must have the right to work in Australia.
